

## KEY INFORMATION DOCUMENT

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

**PRIP Name:** Interest Rate Collar

**PRIP Manufacturer:** Lloyds Bank plc. ("Lloyds Bank")

Call 0203 578 0064 for more information

**Website:** <http://www.lloydsbankcommercial.com>

**Competent Authority:** Lloyds Bank is regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

**Date of Production:** 10/12/2021

**You are about to purchase a product that is not simple and may be difficult to understand**

### What is this product?

**Type:** An Over the Counter (OTC) contract - Interest Rate Instrument

#### Objective:

The objective of this product is to manage adverse movements in currency rates that you may experience. Note that it may not provide you with complete protection against such exposures. The product achieves its objectives by Lloyds Bank agreeing the terms of an OTC contract with you under which your interest rate costs will remain within a pre-agreed minimum (Floor Rate) and maximum (Cap Rate) level to an agreed date (Maturity Date). If interest rates (Floating Rates) rise above the Cap Rate Lloyds Bank will make a payment to you, and if Floating Rates fall below the Floor Rate you will make a payment to Lloyds Bank.

Sample parameters and pre-agreed circumstances and conditions are set out below:

Notional Amount	GBP 10,000	Floor Rate	1.2900 %
Effective Day	14/12/2021	Floating Rate	3-month GBP-LIBOR
Maturity Date	5 Years	Calculation Period and Payment Dates	Quarterly
Cap Rate	2.5100 %	Premium Payable	None

The product achieves its objectives as follows:

Lloyds Bank will compare the Floating Rate over agreed periods (Calculation Period) to the Cap and Floor Rates as follows.

If, the Floating Rate is above the Cap Rate Lloyds Bank will make a net payment to you, based on the difference between the Floating Rate and Cap Rate referenced to the Notional Amount.

If, the Floating Rate is between the Cap Rate and Floor Rate no payments will be made by either party.

If, the Floating Rate is below the Floor Rate you will make a net payment to Lloyds Bank, based on the difference between the Floor Rate and Floating Rate multiplied by the Notional Amount.

Note that this key information document contains a worked example of the structure of the product, using a LIBOR floating rate. Our proposed trade with you may be against other floating rates, such as SONIA, but the structure of the payments due is the same.

#### Intended Retail Investor:

This product is intended for retail investors with a short, medium or long time horizon who:

- (i) have sufficient knowledge or experience to understand complex financial products; and
- (ii) have a loan and want a level of protection against adverse movements in interest rates.

#### Term:

The term of the Interest Rate Collar will depend on how long you wish to protect against adverse movements in interest rates and will be agreed before you enter into the Product. The product is a bilateral agreement that cannot ordinarily be terminated unilaterally by either you or Lloyds Bank. The product terms provide that if certain events of default or other termination events occur, Lloyds Bank or you may terminate the product early. In such an event, the early termination payments described below will apply and the return (if any) you receive on such termination is likely to be different from the scenarios described in this document.

### What are the risks and what could I get in return?

#### Risk Indicator:

Lower risk

Higher risk

The risk indicator assumes you keep the product until the agreed Maturity Date. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level. **Be aware of currency risk. Where you receive payments in a different currency the final return you get depends on the exchange rate between the two currencies. This risk is not reflected in the indicator shown above.** This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed you could incur significant losses.

#### Performance Scenarios:

This table shows the money you could get back or pay over the next 5 years, under different scenarios, assuming a nominal value of GBP 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Investment: GBP 10,000		1 year	3 years	5 Years (Recommended holding period)
Scenarios				
Stress scenario	What you might get back or pay after costs	-GBP 1,134.27	-GBP 966.18	-GBP 965.02
	Average return/ loss over nominal amount each year	-11.23 %	-3.32 %	-2 %
Unfavourable scenario	What you might get back or pay after costs	-GBP 893.8	-GBP 958.39	-GBP 956.97
	Average return/ loss over nominal amount each year	-8.85 %	-3.29 %	-1.99 %
Moderate scenario	What you might get back or pay after costs	-GBP 674.26	-GBP 720.32	-GBP 738.42
	Average return/ loss over nominal amount each year	-6.67 %	-2.45 %	-1.52 %
Favourable scenario	What you might get back or pay after costs	-GBP 229.48	-GBP 210.29	-GBP 169.81
	Average return/ loss over nominal amount each year	-2.27 %	-0.7 %	-0.34 %

Average return is calculated as the Interest Rate Collar's market value under each scenario divided by the notional amount.

#### What happens if Lloyds Bank plc. is unable to pay out?

You may be exposed to a risk that Lloyds Bank might be unable to fulfil its obligations in respect of the Interest Rate Collar. The product is not protected by any local investor compensation or guarantee scheme. This means that if Lloyds Bank is unable to pay out, you may not receive any amount from Lloyds Bank under the product.

#### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the performance of the product. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, over the recommended holding period. They include potential early exit penalties. The figures assume a nominal value of £ 10,000. The figures are estimates and may change in the future.

#### Costs over time:

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios [GBP 10,000]	If you cash in at the end of the recommended holding period
<b>Total costs</b>	GBP 290.87
<b>Impact on return (RIY) per year</b>	0.61 %

#### Composition of costs:

The table below shows:

- the impact each year of the different types of costs on the performance of the product at the end of the recommended holding period;
- the meaning of the different cost categories.

The costs below are the maximum values shown and will vary depending on the underlying parameters of the transaction.

This table shows the impact on return per year			
One-off costs	<b>Entry costs</b>	0.61 %	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	<b>Exit costs</b>	0.00 %	The impact of the costs of exiting your investment when it matures.
Ongoing costs	<b>Portfolio transaction costs</b>	0.00 %	The impact of the costs of us buying and selling underlying investments for the product.
	<b>Other ongoing costs</b>	0.00 %	The impact of the costs we take each year for managing your investments.

## How long should I hold it and can I take it out early?

**Recommended holding period:** This product is designed to be held to the agreed Maturity Date in order to match your investment requirement. It is a product designed to be entered into for its term and cannot be easily sold. Early termination may occur (i) if certain events of default or other termination events occur or (ii) at the sole discretion of Lloyds Bank, in which case early termination payments may apply.

**Early exit impact:** If the product is terminated early, in whole or in part, an Early Termination Payment may become payable by either you or Lloyds Bank. The Early Termination Payment is linked to market parameters and could be a substantial loss or gain to you. Settlement on early termination will be specific to your Interest Rate Collar and will be influenced by a number of factors which include but are not limited to: whether it is an increasing or decreasing interest rate environment; the movement of the interest rates since the transaction Trade Date; the amount affected by the early termination.

**The Early Termination Payment is not a penalty charge.** The sum represents the economic value of what Lloyds Bank would have paid or received if the product continued as agreed. Depending on market conditions at the time of the early termination, the settlement calculated could result in a substantial amount being due from you to Lloyds Bank.

## How can I complain?

#### Contact us

Should you have any complaints about the product, the conduct of Lloyds Bank and/or the person advising on or selling the product, please follow the below steps:

- Include the following information so we can resolve your complaint as quickly as possible: as much information as possible about your complaint; any actions you wish us to take to resolve your complaint;
- Visit us in branch or contact your Relationship Manager
- Call us on **0800 072 3572** or **+441733 462 267**
- Contact us online at <http://commercialbanking.lloydsbank.com/contact-us/>; or
- Write to us at **Lloyds Banking Group, Customer Services, BX1 1LT**

## Other Relevant Information

Additional relevant information may be set out in the confirmation, as supplemented and amended by the applicable definitions and the master agreement terms. These are available upon request from your Lloyds Bank representative. Information about your relationship with us can be found at <http://www.lloydsbankcommercial.com>.
